**DENTAL COLLEGE TO  
HAVE OPERATORY**

Details for the construction of an operatory in the dental hall for the use of the college of dentistry of the University of Tennessee were made Tuesday by Dr. H. A. Morgan, president of the university.

The operatory, it is stated, will have approximately 1,000 feet of floor space and will be modernly equipped. The lighting facilities will be of the latest improved type, and when completed will compare favorably with other large colleges of dentistry.

Dr. Morgan reached Memphis Thursday morning, coming here for the specific purpose of making arrangements at Rogers hall.

The enrollment for the present term at the college of dentistry has been very satisfactory, according to official announcement, and splendid progress is being made in this important branch of the state university.

Work on the new operatory is expected to begin within a short time and will be rushed to completion in order that the students at the institution may have the opportunity to take up the work in the new addition at the earliest possible moment.

J. B. Carpenter, accused in city court of the theft of two automobiles, was granted a writ of habeas corpus Friday after a hearing before F. M. Guthrie, probate court judge.

Carpenter was accused of having disposed of the cars in Arkansas, and his case continued for two weeks by Judge Pritchett in city court.

It was maintained in seeking habeas corpus that in felony cases the city judge had no right to take such action, and that he should have bound the defendant over. Judge Guthrie upheld this contention, bound Carpenter over to the state and fixed his bond at \$1,500, which he said he would be able to make later in the day.

**NEGROES WILL AID  
ROOSEVELT FUND**

The negro unit of Tennessee for the campaign to erect a memorial to the memory of Theodore Roosevelt has launched its campaign throughout the state. Sunday, Oct. 26, has been set as Roosevelt Memorial day, and will be observed by the members of all negro churches throughout Tennessee.

Memphis members of the state executive committee include Wayman W. Keeton, chairman; Rev. W. T. Vernon, Rev. S. B. Grier, Rev. J. W. Ribbins, and Rev. R. E. Roberts.

The drive for funds for West Tennessee will be closed in Memphis by an address by Col. Roosevelt Conkling Simmons, Oct. 27, at Church's auditorium.

**FIVE BUCKS A SMASH  
TO SMOKE IN COURT**

It was just one last sweet puff of his cigarette that cost R. A. Phipps a "five spot" Friday morning.

Phipps strode into the Second criminal court while court was in session, secretly smoking a "fat emma." Judge Harsh spied him about the same time that Deputy King saw the curling smoke ascending up from Phipps' location.

King immediately went to Phipps and told him not to smoke in the courtroom. Phipps agreed, but wanted to take that last sweet puff, and that is what brought him to grief.

"Five dollars," said Judge Harsh, as King brought Phipps before him. Phipps had the five-spot and handed it over to the great state of Tennessee and smiled. He remained in the courtroom.

**JACK ETTINGER GETS  
RESPONSIBLE U. S. POST**

Jack Ettinger, formerly connected with the United States secret service department and for some time located in that service in Memphis, has received the appointment of United States revenue inspector with headquarters in San Antonio, Tex. The post carries heavy responsibilities and the assignment is regarded as a tribute to work done in the secret service.

Mr. Ettinger is a native of Chicago. Since leaving the secret service he has been the proprietor of the Brown Hat company. His investigation into the affairs of the Interborough Rapid Transit company's machinations in New York won him national renown.

**THEY'LL BE HIRED  
IF THEY VOTE RIGHT**

Thirty applicants for appointment on the fire and police departments are to be examined by the civil service board Saturday night at the Vocational high school, so Henry Rawlinson, secretary of the board, has announced.

The civil service law has been a joke during the present administration. If any policeman has been appointed because of a bribe, that fact is not of record.

The young men who take the examination may be sure that if they do not help to "bring the returns up right" in the coming city election, they stand a mighty little chance of serving with the police department during the term of office of the present city officials.

**WILL TELL OF PIONEER  
WORK IN BELGIAN CONGO**

How pioneers of the church and civilization ploughed their way through dense African jungles to carry Christianity to the natives will be told Friday night in a lecture by Dr. L. J. Conpedge, formerly of Lubbo, Belgian Congo, at Westminster Presbyterian church, 1401 Lamar avenue and Bellevue boulevard.

There will be a musical program. The public is invited. Seats will be free and there will be no collection taken.

**KNOXVILLE STREET CAR  
MEN ARE TO STRIKE**

KNOXVILLE, Tenn., Oct. 17. (Sp.)—The street car men of Knoxville, Tenn., will go on a strike at midnight tonight as a result of demands for higher wages being refused. Officers declined to take action regarding the peace treaty now before Congress, the members being unwilling it was stated, to make any concession on what they considered a political issue.

**FARRAR SMITH IS  
FISHER'S SECRETARY**

WASHINGTON, Oct. 17. (Sp.)—Representative Fisher has appointed Farrar Smith, of Covington, Tenn., as his secretary. Mr. Smith has been in Paris where he was a field clerk, but has been released. A radio received by Mr. Fisher stated that his newly appointed secretary left Paris Wednesday.

**TENNESSEE SYNOD  
PASSES UP TREATY**

NASHVILLE, Oct. 17. (Sp.)—The Tennessee synod and conference of the Presbyterian church in the United States in session at Brownsville, Tenn., yesterday afternoon declined to take action regarding the peace treaty now before Congress, the members being unwilling it was stated, to make any concession on what they considered a political issue.

**TWO SEEK CITIZENSHIP.**

Charles Garavelli, a native of Italy, and Aron Melzer, native of Russia, shoemaker and merchant, respectively, Thursday afternoon declared their intention of becoming citizens of the United States.

Garavelli, who resides at 285 Dunlap street, reached the United States March 9, 1907. He announced allegiance to King Victor Emmanuel of Italy.

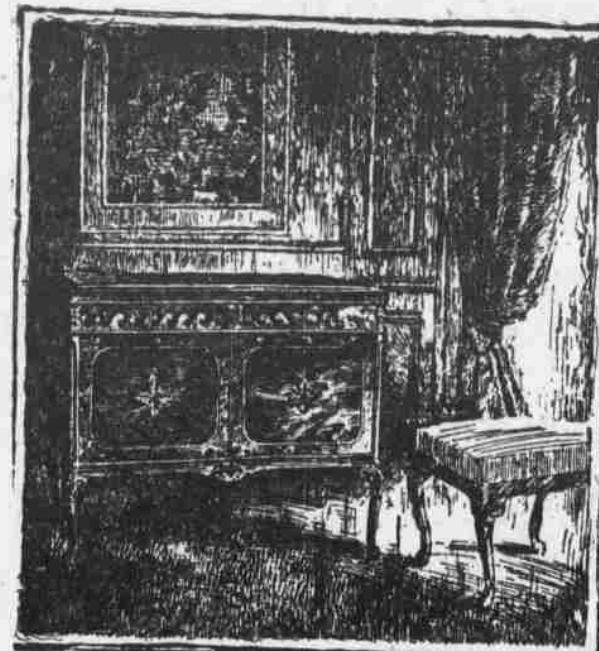

Melzer, 2117 Peabody avenue, came to America on Sept. 1, 1907, and renounced allegiance to the present government of Russia.

**800 GO ON STRIKE.**

BALTIMORE, Oct. 17. (Sp.)—Eight hundred men and women employed in the meat packing industry in this city went on strike today for an eight-hour day and increase in wages. This, the strike leaders declare, is enough to tie up the industry here.

**PLANES CARRY PAPERS  
ON MEXICAN BORDER**

EAGLE PASS, Tex., Oct. 17.—American army men stationed at remote posts on the Rio Grande border are now supplied daily with newspapers by means of airplanes. Routes for the delivery of newspapers to the different river camps by airplane have just been established. The first route laid out was from Eagle Pass to the patrol station located at San Antonio crossing of the Rio Grande, about 50 miles down here. On the way to that terminus

bundles of newspapers are dropped each day at the radio ranch and the Lehman ranch patrol stations. Another route for newspaper delivery by airplane is in operation along the lower border. It is planned to supply the remote military camps in the Big Bend district with newspapers daily by means of an airplane delivery service out of Marfa. Until the airplane was brought into use for communicating with the out-of-the-way patrol stations the soldiers at those posts often went for 10 days to two weeks at a time without receiving any word from the outside world. Some of the camps are as far as 100 miles from the nearest railroad point.

That the patrolling and guarding of the Rio Grande is to be continued for an indefinite time is shown by the extensive preparations that are being made for garrisoning the troops and transporting supplies to the various points on the border region. Authorities announced in making this plan. It has been adopted by the war department for the construction of 1,400 miles of barbed wire along the Rio Grande. Motor trucks are extensively used by the government in that region, as well as in other parts of the border country, but the lack of good roads makes the cost of operating them much greater than it would be otherwise.

**ALBERT IN LOS ANGELES.**

LOS ANGELES, Oct. 17. (By the Associated Press)—King Albert of Belgium and his party arrived here at 5:05 a.m. today. They were welcomed by an official reception committee headed by Mayor Meredith P. Snyder and thousands of people eager to extend a greeting by the royal visitors.

**FARMER GIVEN LIFE.**

HARTVILLE, Mo., Oct. 17.—Randall Smith, 46, wealthy farmer of this county, was found guilty by a jury in the circuit court here today of murder in the first degree and his punishment fixed at a life term in the penitentiary. Smith was accused of furnishing poisoned whiskey which caused the death of Alfred Hutnell, a neighbor.

**UNVEIL MONUMENT.**

RIPLEY, Miss., Oct. 17. (Sp.)—J. W. Tomlinson, clerk of the (chalybeate) camp, W. O. W., has just announced that the monuments of Sovereigns J. G. Smith and Hugh Renfro will be unveiled at Providence cemetery on Sunday, Oct. 26, 3 o'clock p.m. Invitations to neighboring camps have been sent and a large crowd is expected to attend.

**MOVES TO OKLAHOMA.**

RIPLEY, Miss., Oct. 17. (Sp.)—William Garner, for many years a citizen of this county, has sold his large farm two miles south of Ripley to James Pickens, of Dumas, and expects to move to Oklahoma in the near future.

LEXINGTON, Ky., Oct. 17. (Sp.)—Richmond Scholey, of Newbury, Tenn., student at Centre college, Danville, Ky., was badly cut Thursday by glass when a flask in which he had put hydrogen exploded.

**HOW NAT ANSWERED.**

Toward the end of Nat Goodwin's series of marriages—while he was for the moment without a wife—he was obliged one day to answer a number of official questions. He hurriedly put down the answers until he came to one, which read:

"Are you married, single or divorced?" He pondered over this for some time. Finally, his look of worryment vanished. Beneath the question he wrote the answer, "Yes."—Everybody's Magazine.

**Curling Hair Like This Promotes Its Health**

For those whose hair is straight and lacks nothing better could be recommended than the silicone method. This perfectly natural in appearance, and the health of the hair is not affected as where the heated iron is used. A few ounces of liquid silicone—which can of course be had at any drug store—lasts a long time, so it is quite economical to use. It is pleasant to use, and is easily applied with a clean toothbrush. The hair should be moistened the length before retiring.

The pretty wave effect in evidence in the morning is surprising to those who try this simple method the first time. The liquid also serves as an excellent dressing, giving the hair a delightful gloss.

**"That's My Farm"**

It seems to be everyone's ambition, and a good one, to some day own a farm. Abraham Lincoln said: "No other occupation opens so wide a field for the profitable and agreeable combination of labor and cultivated thought as agriculture."

There is no doubt about it, that the healthiest and most care-free, independent life is the life on the farm. Realize your independence. **AMERICA GOES ON  
ICE CREAM SPREE**

CHICAGO, Oct. 17.—The ice cream habit has America in its grip. Ice cream manufacturers from Saskatchewan to the Panama Canal Zone report more than 400,000,000 gallons to be the 1936 consumption to date, with the season still going strong.

Deviates of hard liquor, in its palmy days, were negligible in number and limited in capacity compared to the horde that daily swarms a perky spoon upon the nation's favorite confection.

But prohibition is not the cause for the unprecedented increase in ice cream consumption, they say.

Prohibition has proved a disappointment for the soft drink and ice cream manufacturers. S. T. Nivling, Rochester, N. Y., vice president of the National Association of Ice Cream Manufacturers, said: "The big liquor centers have not been the largest contributors to ice cream consumption."

Mats of the "sundae belts" in the United States show that Chicago and the Middle West were on a wild ice cream "bender" all summer.

New York and the Atlantic seaboard were very offish, with consumption no larger than usual.

The South runs largely to soft drinks with a caffeine "kick," but is coming around to ice cream.

The Far West is producing millions of frozen delicacy toppers.

Canada eats more ice cream than the United States on a population basis.

The farther north the greater the appetite for ice cream. Moose Jaw, with a population of 25,000, consumed one-fourth million gallons.

Panama simply has to have its ice cream in unlimited quantities.

The nearer we get to the Arctic circle the more ice cream our people eat. S. A. Caulder, Saskatchewan, said: "In winter we sell more bricks than in summer. It is nothing for us to see a young fellow bring his best girl to town on a dog sled with the temperature around 30 degrees below zero, and head straight for an ice cream parlor."

The manufacturers are greatly perturbed over the 1936 sugar situation. Without federal sugar rationing, they say, output next summer will be curtailed.
